PROFILE

Dedicated and detail-oriented web developer seeking a challenging role that utilize my skills in front-end development, back-end development, and database management to deliver high-quality web application and contribute to the growth of a dynamic organization.

PROJECTS

Freelance Project: Nexons DNA

- Tech Stack:** The project utilizes JavaScript for frontend interactivity, Python for backend logic, and Django as the framework to structure the web app.
- Goal:** To develop a responsive, user-friendly web application with seamless frontend-backend integration.

Car_Zone

- "Car_Zone" is a platform for buying second-hand cars, built with HTML, CSS, and JavaScript for the frontend, MySQL for storage, and Django (Python) for the backend. Razorpay handles the payment processing.
