WORK EXPERIENCE

Full Stack Developer Intern *[Code-B Solutions Private Limited]*   *Feb-April 2025*
Description:-

- Developed a responsive web application using **Django** as the **backend framework and MySQL for database management.**
- Designed and implemented intuitive user interfaces using **HTML, CSS, JavaScript, and Bootstrap.**

 Key Contributions:-

- Built dynamic web pages with **Django views, templates, and models**, ensuring a robust **backend structure**.
- Integrated **MySQL database functionalities** for efficient **data storage, retrieval, and management** .

Freelancer (Nexons DNA):-   Dec-Jan 2024

- The project utilizes JavaScript for **frontend interactivity**, Python for **backend logic, and Django** as the framework to structure the web app.
- **To develop a responsive**, user-friendly web application with seamless **frontend-backend** integration.

PROJECTS

- **NGO Management System** *[Code-B]*[Link]   *Feb-Apr 2025*
    - Engineered a full-stack web application for an NGO, utilizing Django (Python) for backend logic and API development, MySQL for database management, and [HTML, CSS, JavaScript / Specific Framework] for the user interface.
    - **Tech Stack:** Built with HTML, CSS, and JavaScript for the frontend, MySQL for storage, and Django (Python) for the backend.
- **Car_Zone** *[Second Hand Car's selling Platform]* [Link]   *Dec-2024, Jan-2025*
    - "Car_Zone" is a platform for buying second-hand cars, built with HTML, CSS, and JavaScript for the frontend, MySQL for storage, and Django (Python) for the backend. Razorpay handles the payment processing.
    - **Tech Stack:** Built with HTML, CSS, and JavaScript for the frontend, MySQL for storage, and Django (Python) for the backend.
- **petstore** *[IT.Vedant Academic Project]*[Link]   *Sept-Dec 2024*
    - Project Overview: "PetStore" is an academic project at Itvedant that allows users to buy pets.
    - **Tech Stack:** Built with HTML, CSS, and JavaScript for the frontend, MySQL for storage, and Django (Python) for the backend.

CERTIFICATIONS

- **Demonstrated proficiency** by completingPython Web Development Certified by IBM
- **Established competence** by completing certification in SQL and Relational Databases Certified by IBM
- **Secured certification** for Web Development using HTML Certified by IBM
- **Certified for course completion** in the Master in Full Stack Web Development **with Python, 2025**

EXTRA-CURRICULAR ACHIEVEMENTS/ACTIVITIES
